

## **GMEC Subcommittees**

### **Program Review Subcommittee**

Under the direction of GMEC, the Program Review Subcommittee is responsible for conducting all internal program reviews, reviewing all ACGME program accreditation letters in the context of the mid-cycle document, and monitoring progress reports of programs receiving either internal citations or RRC citations. The Program Review Subcommittee also monitors programs for compliance with competency curriculums, evaluation tools, educational objectives and effectiveness in meeting those objectives, educational and financial resources, effectiveness in addressing areas of concern in previous ACGME accreditation letters of notification and previous internal reviews, effectiveness of educational outcomes in the ACGME general competencies, effectiveness in using the evaluation tools and outcome measures to assess the residents' level of competence in each of the ACGME competencies, review of the annual program survey, and review of the annual program improvement efforts in resident performance, faculty development, graduate performance (including performance of program graduates on the certification exam), and program quality. Recommendations made by this group are presented to the GMEC and DIO for further recommendations and actions.
