

## **LEAVE POLICIES**

### **Vacation Leave**

The University of Connecticut School of Medicine provides residents/fellows with 3 weeks paid vacation per contract year. (A week is equal to 5 weekdays and 2 weekend days). At the Program Director's discretion, additional paid leave for vacation of up to one week may be granted if the educational requirements of the program allow for this. Each resident is responsible for knowing and following their program's policy on vacation. Vacation leave is scheduled by the Program Director to ensure adequate coverage of educational and clinical responsibilities. Vacation leave (and all leave) can not be carried over in a new academic year.

Note: Any extension of time in a training program will be for the amount of time needed to complete the training requirements and will not include vacation time.
