

3.B.2.

Education Committee:

The Program Director of each residency training program is responsible for establishing an Education Committee (or its equivalent) to develop curriculum, set standards, and evaluate residents. This committee shall consist of faculty involved in the training of residents and at least one resident from the program.

Each Program Director and Education Committee is responsible for developing goals and objectives for each rotation in the training program and for each level of the program. A written copy of these goals and objectives shall be kept in the Department/Division office. All residents in the program shall be notified of the availability of this document.
