

5.B.8.

Unpaid Leave (other than medical or family leave)

Under certain circumstances, a resident may request a **Leave of Absence** for personal reasons.

Whether or not the position is held open for the resident is dependent upon the program and RRC requirements. Re-instatement is not automatic. All pay and benefits are terminated. **Should the resident take a personal leave without permission from the Program Director, the resident will be considered to have resigned from the program.**
